

Line Relationships Explained

- Solid Line Open Triangle** indicates inheritance. Is-A relationship.
Example:
SubWub, Here's What's Gonna Happen, and Switch It Up "Is-A" type of Featured Sub
- Solid Line** indicates "association" a has-a relationship.
Example: A sandwich, chips, and a drink are all part of things that someone can order.
- Solid Line Closed Diamond** indicates a strong "has-A" relationship. Toppings make up what comes on a sandwich. Can't have a sandwich without toppings.
- Dotted Line Open Triangle** this indicates implimenting a class. The order class impliments or uses the interface to do the action of ordering.
